

**It's two games
in one!**

Gremlin/SEGA

The profit of two games in the space of one!

Gremlin's DUAL lets you combine two of the hottest video games on the market in one cabinet. So you get double the profit potential in the same amount of space. And pay just one license or permit fee for two games!

With DUAL you can pick from the most popular, high income Gremlin games. All with exciting action sounds and attention-getting full color screens. And you can choose from Upright, Cocktail and Slimline cabinet models.

But whatever combination of Gremlin games and cabinets you pick, you can't lose. Because these games are the real profit leaders of the industry. Which means a bigger, better return on your investment.

Besides, putting two winning Gremlin games together in one cabinet helps you make every inch of floor space pay. Double!

In fact, using DUAL in locations limited by space to only three or four machines will almost double your income. While the added player interest nearly doubles the life of your investment.

DUAL also gives you added profit protection. In many cases, if one of the games is "down," the other game will keep right on working while you get the required replacement part.

For price or delivery information, contact the Gremlin/Sega distributor nearest you.

Or call (714) 277-8700.

The logo features the word "Gremlin" in a stylized, rounded font with a small red dot above the 'i'. To its right is a diagonal slash, followed by the word "SEGA" in a bold, blocky, sans-serif font.
